

【昭和レトロな水道局に先端オフィス】

昭和十年・戦前生まれの水道局庁舎の一角に、公共施設リノベーション事業として整えられたメビック扇町。
昭和レトロな空気の中を進み廊下を曲がると、高感度なオフィスが突如出現する。このギャップがたまらない。

【 A state-of-the-art office facility located in the classic building of the Waterworks Bureau from the Showa period 】

Mebic OGIMACHI was set up in part of the Waterworks Bureau that was built in 1935, as a renovation project for effective use of public facilities. Enter the Showa classic atmosphere and turn the corner in the corridor. Sophisticated offices suddenly appear in front of you. This big jump is really exciting.
